

# ***Fuel Additives***

## ***Fuel Problem Solver***

## Type

## Function

## Product Name

### **Diesel & MGO Engines**

### **MAXIMUS Diesel Power Booster** **Turns regular diesel into premium+++**

Maximum performance  
Maximum fuel efficiency  
Eliminates turbo lag

**Dilution Rates: 500MI treats up to 250L (1:500)**

### **DPB-100 Injector Cleaner**

#### **Reduces fuel consumption & emissions by up to 10%**

Contains strong detergents which clean & protect injectors  
Improves combustion, boosts cetane  
Improves fuel stability  
Reduces harmful emissions

**Dilution Rates: 1L treats up to 1,500L (1:1500)**

### **CEBO Cetane Booster**

#### **Boosts cetane numbers in diesel & MGO**

Contains pure 2-EHN 2-Ethyl Hexyl Nitrate  
Improves performance, increases cetane by up to 8 pts  
Improves cold start and reduces diesel engine knock

**Dilution Rates: 1L treats up to 1,000L (1:1000)**

### **DPF-24 Diesel Particulate Filter Cleaner**

#### **Rapidly regenerates DPF systems in all vehicles**

Burn off accumulated soot deposits  
Saves fuel and increases DPF life  
Compatible with all diesel engines  
Low cost regeneration solution

**Dilution Rates: 250MI treats up to 60L (1:240)**

### **FPB-77 FuelPlus Multi-Biocide**

#### **Knocks out harmful bugs in all fuels**

Quickly kills all fuel microbes in fuel & water phase  
Stops excess sludge build-up keeping fuel stable for 6 months  
Stops blocked lines and filters, long lasting protection

**Dilution Rates: 250MI treats up to 2,500L (1:10000)**

### **FD-66 Fuel Dryer**

#### **Eliminates water from the fuel tank**

Protects against rust and corrosion  
Prevents carburettor and fuel system icing  
Simply burned in the engine during normal usage

**Dilution Rates: 250MI treats up to 75L (1:300)**

## Type

## Function

## Product Name

### Diesel & MGO Engines

#### **Dehazer & Demulsifer**

##### **Removes fuel haziness, water from diesel & MGO**

Reduced need for filtering and reprocessing  
Reduced tank settling period, improving operational efficiency  
Preventing of hazing problems across supply chain

**Dilution Rates: 500ML treats up to 5,000L (1:10000)**

#### **LUBO Lubricity Booster**

##### **Low sulphur fuels lubricant improver**

Improves lubricity of low sulphur diesel/ MGO  
Extends life of components by minimizing metal-metal contact

**Dilution Rates: 1L treats up to 4,000L (1:4000)**

#### **Winter Cold Flow**

##### **Prevents winter cold flow gelling & waxing**

Reduced pour point up to 22°C (40°F)  
Reduced wax formation up to 10°C (18°F)  
Reduced CFPP (Cold filter plugging point)

**Dilution Rates: 1L treats up to 1,000L (1:1000)**

### Petrol All Engines

#### **PIC-24 Petrol Power Blast**

##### **Cleans and protects injectors, boosts power**

Improves combustion & boosts octane  
Improves fuel stability  
Gives as new engine performance

**Dilution Rates: 250ML treats up to 250L (1:1000)**

#### **FD-66 Fuel Dryer**

##### **Eliminates water from the fuel tank**

Protects against rust and corrosion  
Prevents carburettor and fuel system icing  
Simply burned in the engine during normal usage

**Dilution Rates: 250ML treats up to 75L (1:300)**

### Heating Oil & Kerosene

#### **VULCAN Heating Oil Treatment**

##### **Removes soot, cleans injectors and burner nozzles**

Improves combustion, reduces oil consumption by 10%  
Ideal for Aga, Rayburn and Range Master cookers  
Removes accumulated soot and sludge

**Dilution Rates: 500ML treats up to 2,500L (1:5000)**
